

Orac Decor – Solution Architect

Solution Architect

With an eye for interior design... or two!

Open the door to a groundbreaking career in a fast-paced environment where your voice is heard and technology is part of our strategy for success. Oh... Hang on. We haven't told you who we are yet. Let's start with that!

At Orac, we believe every wall is a blank canvas. Where others see a flat surface, we see a world of possibilities. Welcome in the world of Orac. The world of architectural elements, made for walls.

We are a family-owned Belgian company that has been a leader in architectural elements for walls for over 50 years. From our headquarters in Ostend, our innovative products are available across Europe, from Paris to Köln, London, Barcelona, Slovakia, Lecco, and beyond.

Our commitment to sustainability is at the heart of everything we do. We strive to make a positive impact not only today but also for future generations. Sustainability is a core value that guides our choices—choosing the good one for our planet, people, and community.

We believe in a world in which digital technologies and data enhance the customer experience. A solid digital backbone combined with strong local teams is a powerful mix for our growth.

And we need you for this...

As a Solution Architect you will join the Digital team to help drive growth across our organization. As a Solution Architect you will be responsible for designing and implementing technical solutions that meet the business needs of the organization. This includes working with the digital & data team and other business stakeholders to understand their requirement and translating them into technical solutions that are scalable and secure.

Ready to become part of it? Your key responsibilities?

- You are able to translate business requirements into detailed technical specifications that serve as a basis for technical developers (internal and external).
- You lead architecture development across one or multiple IT domains, ensuring solutions align with enterprise architecture standard and selecting suitable technologies and platforms to achieve business objectives.
- You develop integration solutions to ensure smooth data flow across platforms, improving operational efficiency and maintaining data integrity.
- You guide development teams to adhere to architectural standards, oversee technical documentation reviews, and ensure consistency and quality across projects.
- You engage in workshops and meetings to thoroughly understand stakeholders requirements, facilitating in-depth business-needs analysis to ensure aligned technical solutions.

This is how we describe you...

- You have a Master Degree in Computer Science, Information Technology, Software Engineering or a related technical discipline.

- 5+ years of experience as an architect and/or development lead for software development projects.
- Proficiency in cloud computing platforms (preferably Azure) and their architectural best practices.
- Strong background in agile software development methodologies, enabling efficient and flexible project management.
- Outstanding communication and interpersonal skills, with the ability to influence and collaborate with both technical and non-technical stakeholders.
- Self-starter who can get things done quickly, thinking creatively and with a strong problem-solving mindset.
- Committed to constant innovation, automation, and improvement to keep solutions state-of-the-art and effective.
- Technology stack
- Bonuspoints if you have experience with for at least two of the following technologies:
- *SAP S/4HANA*
- *Salesforce*
- *Adobe commerce*

And of course, our offer to you...

We give personality to walls and opportunities to personalities!

You can expect a key role in an interior design business where you will be able to make a big impact on the organisation. Working in an environment that inspires and excites.

- You will be working in a challenging international environment
- You'll be part of a hybrid-working team with a combination of working from home and at our office in Ostend.
- A culture that emphasizes freedom and responsibility.
- A great team of colleagues.

Organization driven by technology - We have a tremendous technology backbone!

PASSION, INSPIRATION and LOYALTY are our values. Join a dynamic company with a fun and stable working environment. We would like to welcome you to our ORACIAN family!
